### **Course Description and Goals**

This course has been designed especially for non-Psychology majors. Its purpose is to provide students with an understanding of the key theories, research methods, and discoveries of psychology, with an emphasis on developing the knowledge and skills necessary to be effective consumers of psychological theory and research. Through a focus on issues that arise in everyday life, this course will demonstrate some of the ways in which psychology can be of use to students in their personal and professional lives.

Areas of focus in this course include:

- Psychology as a biological and social science
- the areas where psychology can be applied to an understanding of everyday life
- current theories and approaches for understanding human behaviour and mental health
- the research tools and methods used in psychology and the critical thinking skills they support

**Note: Psyc 203 does not count toward the minimum requirements for the Major or Honours in Psychology. Psyc 205 (Principles of Psychology) is the prerequisite course for all psychology courses except Psychology 305. Psyc 203 cannot be used in place of Psyc 205.**

### **Prerequisites**

There are no prerequisites required to take this course.

### **Required Text**

Nevid, J. S. & Rathmus, S. A. (2009). *Psychology and the challenges of life: Adjusting to the new millennium (11<sup>th</sup> Ed.)*, Hoboken, NJ: John Wiley & Sons. (available in the University bookstore)

### **Student Response Pad (“clickers”)**

We will be using eInstruction Classroom Performance System (CPS) student response pads, more often referred to as “clickers.” These are available as a separate purchase at the University of Calgary bookstore.

### **Course Website**

The course website is located on blackboard: <https://blackboard.ucalgary.ca/webapps/login/>.

Powerpoint slides will be made available at this site before each class. In addition, announcements and grades will be posted on this site. You will also be able to access practice quizzes and review material from the textbook directly through the course blackboard page.

## **Evaluation**

### **Exams (4 exams x 23% each = 92% of final grade)**

There are three tests (Oct. 5, Oct 26, Nov. 23) and a final test (to be written during the final exam period) scheduled for this course. Each test is worth 23% of your mark and will cover text and lecture material (including films and other demonstrations). Tests are non-cumulative and will consist of multiple-choice questions (max total = 92% of your mark). Please see the lecture schedule to determine what topics will be covered on each test.

All examinations in this course will employ a “paperless” format, so-called because rather than handing out paper examination booklets, questions are projected on the screen in the classroom and you will record your responses on an optical score sheet that will be machine scored.

### **In-Class Participation using the CPS clickers (4% of final grade)**

CPS clickers are being used in this class in order to enhance your participation and ultimately, to help you to better engage with the material. Four percent of your final grade will be based on your clicker participation during class. In order to receive participation credit for using your clicker, you will have to register it online. Information will be provided in class and posted on blackboard telling you how to register your clicker.

Clicker participation marks will be broken down as follows:

At least 80% of clicker questions answered = 4%

At least 60% of clicker questions answered = 3%

At least 40% of clicker questions answered = 2%

At least 20% of clicker questions answered = 1%

Less than 20% of clicker questions answered = 0%

### **Experiential-Learning/Article-Evaluation Course Component (4% of final grade)**

This experiential-learning/article-evaluation component provides enriched learning opportunities in this introductory course. You can complete this component by participating in research studies (Option 1: Research Participation), by completing 1-page article evaluations from a designated list (Option 2: Article Evaluations), or by a combination of the two options. Thus, you will learn more about psychology by taking part in research studies and/or by reading and evaluating articles from a psychological perspective.

**Option 1: Research Participation.** Students can complete this course component by creating an account and participating in Departmentally approved research studies at <http://ucalgary.sona-systems.com>. Students earn 0.5% (0.5 credits) for each full 30 minutes of participation. Each study will be followed by an educational debriefing experience. The demand for timeslots may exceed the supply in a given term. Thus, students are not guaranteed that there will be enough studies available to them to meet their credit requirements. Students should seek studies early in the term and should frequently check for open timeslots. **The last day to participate in research and allocate credits is Dec 8<sup>th</sup>, 2010.**

**Option 2: Article Evaluations.** Students can complete this course component by reading and evaluating articles. Students earn 1% (1 credit) for each acceptable evaluation. Students can submit only one evaluation per due date (**September 24, October 15, November 5, November 26, 2010**). Please consult the Blackboard for this course for more information about this option.

**Option 3: Combinations of Options 1 and 2.** Students can complete this course component through any combination of Options 1 and 2 (e.g., 3% through Option 1 and 1% through Option 2, or vice versa). Given that each article evaluation counts for 1%, students who complete, for example, 2.5% through Option 1 would need to complete two evaluations to successfully complete all 4% of this course component. As mentioned under Option 2, students can only submit one article evaluation per due date. Thus, students who opt to combine Options 1 and 2 must plan ahead carefully.

### Grading Scale

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

As stated in the University Calendar, it is at the instructor's discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is between two letter grades. To determine final letter grades, final percentage grades will be rounded up or down to the nearest whole percentage (e.g., 89.5% will be rounded up to 90% = A but 89.4% will be rounded down to 89% = A-).

### Reappraisal of Grades

A student who feels that a piece of graded term work (e.g., term paper, essay, test) has been unfairly graded, may have the work re-graded as follows. The student shall discuss the work with the instructor within 15 days of being notified about the mark or of the item's return to the class. If not satisfied, the student shall immediately take the matter to the Head of the department offering the course, who will arrange for a reassessment of the work within the next 15 days. The reappraisal of term work may cause the grade to be raised, lowered, or to remain the same. If the student is not satisfied with the decision and wishes to appeal, the student shall address a letter of appeal to the Dean of the faculty offering the course within 15 days of the unfavourable decision. In the letter, the student must clearly and fully state the decision being appealed, the grounds for appeal, and the remedies being sought, along with any special circumstances that warrant an appeal of the reappraisal. The student should include as much written documentation as possible.

### Plagiarism and Other Academic Misconduct

Intellectual honesty is the cornerstone of the development and acquisition of knowledge and requires that the contribution of others be acknowledged. Consequently, plagiarism or cheating on any assignment is regarded as an extremely serious academic offense. Plagiarism involves submitting or presenting work in a course as if it were the student's own work done expressly for that particular course when, in fact, it is not. Students should examine sections of the University Calendar that present a Statement of Intellectual honesty and definitions and penalties associated with Plagiarism/Cheating/Other Academic Misconduct.

### Academic Accommodation

It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 403-220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than 14 days after the start of this course.

### Absence From A Test/Exam

Makeup tests/exams are NOT an option without an official University medical excuse (see the University Calendar). A completed Physician/Counselor Statement will be required to confirm absence from a test/exam for health reasons; the student will be required to pay any cost associated with this Statement. Students who miss a test/exam have 48 hours to contact the instructor and to schedule a makeup test/exam. Students who do not schedule a makeup test/exam with the instructor within this 48-hour period forfeit the right to a makeup test/exam. At the instructor's discretion, a makeup test/exam may differ significantly (in form and/or content) from a regularly scheduled test/exam. Except in extenuating circumstances (documented by an official University medical excuse), a makeup test/exam must be written within 2 weeks of the missed test/exam.

### **Evacuation Assembly Point**

In case of an emergency evacuation during class, students must gather at the designated assembly point nearest to the classroom. The list of assembly points is found at <http://www.ucalgary.ca/emergencyplan/assemblypoints>

Please check this website and note the nearest assembly point for this course.

### **Student Organizations**

Psychology students may wish to join the Psychology Undergraduate Students' Association (PSYCHS). They are located in Administration 170 and may be contacted at 403-220-5567.
