Course description

This course provides a general introduction to the major areas of psychology. At the end of the course, you will be able to evaluate psychological information according to the scientific method and will have introductory-level knowledge of:

- psychology as a biological and social science
- the diverse sub-fields of psychology
- current theories for understanding different areas of psychology
- methodologies and terminology used in different areas of psychology

Lectures are intended to highlight and extend, rather than summarize, assigned text readings. You will benefit most from lectures if you read the assigned material prior to the corresponding lecture. Class outlines will be available on the Department of Psychology website:

<http://www.psych.ucalgary.ca/students/courses/> and on the course Blackboard site.

These outlines are provided to assist you in organizing and understanding the material and are not a substitute for class attendance.

Prerequisites

There are no prerequisites for this course.

Required Text: Lefton, L.A., Brannon, L., Boyes, M. C., and Ogden, N.A. (2008) **Psychology**, (Third Canadian Edition) Allyn and Bacon Canada, Toronto.

There is a study guide available for this textbook. It is up to the student to decide if they wish to purchase one. (If such books have been of use to you in that past or if you feel you could use some help structuring your studying for the course than it is a good idea. If, on the other hand, you have a study system that works for you then you may not need it).

Blackboard for PSYC 205 (20)

There is an area on the general campus Blackboard site set aside for this course. Blackboard can be accessed via this link; <http://blackboard.ucalgary.ca/webapps/login> **THIS SITE SHOULD BE YOUR FIRST STOP FOR QUESTIONS ABOUT COURSE TOPICS DATES ETC.**

Evaluation

Three term tests and a final exam are scheduled. All are non-cumulative, multiple-choice tests based on **both** textbook and lecture material (including films and other demonstrations). Not all test material will be covered in class, and some test material covered in class will not be covered in the text, so regular attendance is important for success in this course. Note that you are responsible for **all** assigned readings from the text even if the specific content has not been covered in lectures. Many test questions will involve critical thinking, a skill you will be given practice developing in class, so again it's to your advantage to come to class. The use of class notes or the text book, computers or calculators is prohibited during the tests in this course.

Tutorial Assignments. As you know from registration, the Psychology Department has assigned tutorials to this course. The tutorial topics are as follows:

Tutorial Assignment Topics

- (Week of May 16) Searching the Psychological Literature
- (Week of May 23) Tutorial #2
- (Week of May 30) Tutorial #3
- (Week of June 6) Tutorial #4
- (Week of June 13) Tutorial #5
- (Week of June 20) No tutorials (except for any that need to meet due to Victoria day)

You **must** submit all **5 assignments** for grading to the TA running your tutorial. Tutorial papers are due one week after they are assigned (late penalty = 10% per calendar day). Your tutorial score will contribute 24% of your overall score in this course. Your tutorial score will be determined as follows:

Assignment from Tutorial #1	20%
Assignment from Tutorial #2	20%
Assignment from Tutorial #3,	20%
Assignment from Tutorial #4	20%
Assignment from Tutorial #5	20%
Total	100%

Converted to a score out of **24** as contribution to overall score.

Students are strongly encouraged to attend all tutorials in order to be certain they understand each assignment.

Your **course grade** will be computed as **the average of your best two in-term test marks PLUS your final exam mark PLUS your tutorial mark (24% for each test and for the tutorial mark)**

and PLUS your Experiential Learning score (4%) (see section below Tentative class schedule).

Thus, you can do badly on one of the three in term tests (or miss one due to illness/emergency) but you must write two of the three tests as well as the final exam. Never miss a test unless it is absolutely necessary, since a subsequent illness/emergency could cause you to miss a second test. If you miss a second term test, you must supply me with Physician/Counsellor Statement(s) indicating the basis for BOTH missed tests as soon as possible after the second missed test. Make things easy on everyone: do not miss more than one term test.

Experiential-Learning/Article-Evaluation Course Component (4% of final grade)

This experiential-learning/article-evaluation component provides enriched learning opportunities in this introductory course. You can complete this component by participating in research studies (**Option 1: Research Participation**), by completing 1-page article evaluations from a designated list (**Option 2: Article Evaluations**), or by a combination of the two options. Thus, you will learn more about psychology by taking part in research studies and/or by reading and evaluating articles from a psychological perspective.

Option 1: Research Participation. Students can complete this course component by creating an account and participating in Departmentally approved research studies at <http://ucalgary.sona-systems.com>. Students earn 0.5% (0.5 credits) for each full 30 minutes of participation. Each study will be followed by an educational debriefing experience. The demand for timeslots may exceed the supply in a given term. Thus, students are not guaranteed that there will be enough studies available to them to meet their credit requirements. Students should seek studies early in the term and should frequently check for open timeslots. **The last day to participate in research and allocate credits is June 24th, 2011.**

Option 2: Article Evaluations. Students can complete this course component by reading and evaluating articles. Students earn 1% (1 credit) for each acceptable evaluation. Students can submit only one evaluation per due date (????????). Please consult the Blackboard for this course for more information about this option.

Option 3: Combinations of Options 1 and 2. Students can complete this course component through any combination of Options 1 and 2 (e.g., 3% through Option 1 and 1% through Option 2, or vice versa). Given that each article evaluation counts for 1%, students who complete, for example, 2.5% through Option 1 would need to complete two evaluations to successfully complete all 4% of this course component. As mentioned under Option 2, students can only submit one article evaluation per due date. Thus, *students who opt to combine Options 1 and 2 must plan ahead carefully.*

Grade scale

Percentages below indicate the standard required for each letter grade. These cutoffs may be lowered but will not be raised.

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

As stated in the University Calendar, it is at the instructor's discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is between two letter grades. To determine final letter grades, final percentage grades will be rounded up to the nearest whole percentage (i.e., 89.50% will be rounded up to 90% but 89.49 will not).

Absence from a Test

There are no make-up term tests (see "Evaluation" above). You must write the final exam during the exam period. Should you miss it, a make-up exam is not an option without an official University medical excuse. You must contact the instructor before the scheduled examination or you will have forfeited any right to make up the exam. A completed Physician/Counsellor Statement may be required to confirm absence from a test for health reasons. The student will be required to pay any cost associated with the Physician/Counsellor Statement.

Reappraisal of Grades

A student who feels that a piece of graded term work (e.g., term paper, essay, test) has been unfairly graded, may have the work re-graded as follows. The student shall discuss the work with the instructor within 15 days of being notified about the mark or of the item's return to the class. If not satisfied, the student shall immediately take the matter to the Head of the department offering the course, who will arrange for a reassessment of the work within the next 15 days. The reappraisal of term work may cause the grade to be raised, lowered, or to remain the same. If the student is not satisfied with the decision and wishes to appeal, the student shall address a letter of appeal to the Dean of the faculty offering the course within 15 days of the unfavourable decision. In the letter, the student must clearly and fully state the decision being appealed, the grounds for appeal, and the remedies being sought, along with any special circumstances that warrant an appeal of the reappraisal. The student should include as much written documentation as possible.

Plagiarism and Other Academic Misconduct

Intellectual honesty is the cornerstone of the development and acquisition of knowledge and requires that the contribution of others be acknowledged. Consequently, plagiarism or cheating on any assignment is regarded as an extremely serious academic offense. Plagiarism involves submitting or presenting work in a course as if it were the student's own work done expressly for that particular course when, in fact, it is not. Students should examine sections of the University Calendar that present a Statement of Intellectual honesty and definitions and penalties associated with Plagiarism/Cheating/Other Academic Misconduct.

Academic Accommodation

It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 403-220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than 14 days after the start of this course.

Freedom of Information and Protection of Privacy (FOIP) Act

The FOIP legislation disallows the practice of having student's retrieve tests and assignments from a public place. Therefore, tests and assignments may be returned to students during class/lab, or during office hours, or via the Department Office (Admin 275), or will be made available only for viewing during exam review sessions scheduled by the Department. Tests and assignments will be shredded after one year. Instructors should take care to not link students' names with their grades, UCIDs, or other FOIP-sensitive information.

Evacuation Assembly Point

In case of an emergency evacuation during class, students must gather at the designated assembly point nearest to the classroom. The list of assembly points is found at <http://www.ucalgary.ca/emergencyplan/assemblypoints>

Please check this website and note the nearest assembly point for this course.

Student Organizations

Psychology students may wish to join the Psychology Undergraduate Students' Association (PSYCHS). They are located in Administration 170 and may be contacted at (403) 220-5567.
