Required Text: Berk, Laura (2005, 5th Edition). Infants, Children and Adolescents. Needham Heights, MA: Allyn and Bacon.

There is a study guide available for this textbook. It is up to the student to decide if s/he wants to purchase one.

Copies of the overhead notes to be used in class (as well as this outline) will be available through the course Blackboard site.

University of Calgary Curriculum Objectives

1. **University of Calgary Core Competencies.** Through this course, in addition to the course content detailed in this outline, you will be provided opportunities to observe and apply critical and creative thinking skills, to conduct analyses of problems within and beyond course material and be shown some of the skills needed to gather and organize information effectively. You will experience a small amount of the logical calculation and mathematical ability that underpins some of the sub-fields of Psychology. Further, as far as is possible in a survey course, you will have an opportunity to see and apply the abstract reasoning that supports developmental theories as well as the interpretive and assessment skills, and the insight and intuition that goes into generating knowledge in Developmental Psychology and in general.
2. **Curriculum Redesign Features.** The interdisciplinary location and aspects of Developmental Psychology will be regularly featured parts of the course. As well, international aspects of Developmental Psychological theory and discipline issues will be presented. While limited by the survey nature of the course you will, through class examples and suggested reflective exercises, see how development can be seen and studied experientially and how research fits directly into the material discussed and practiced in class.

Evaluation

Three term tests and a final exam are scheduled. All are non-cumulative, multiple-choice tests based on both textbook and lecture material (including films and other demonstrations). Not all test material will be covered in class, and some test material covered in class will not be covered in the text, so regular attendance is important for success in this course. Note that you are responsible for all assigned readings from the text even if the specific content has not been covered in lectures. Many test questions will involve critical thinking, a skill you will be given practice developing in class, so again it's to your advantage to come to class.

Your course grade will be computed as the average of your best two in-term test marks and your final exam mark (33.3% each). Thus, you can do badly on one of the three tests (or miss one due to illness/emergency) but you must write two of the three tests as well as the final exam. Never miss a test unless it is absolutely necessary, since a subsequent illness/emergency could cause you to miss a second test. If you miss a second term test, you must supply me with Physician/Counsellor Statement(s) indicating the basis for BOTH missed tests as soon as possible after the second missed test. Make things easy on everyone: do not miss more than one term test. At the instructor's discretion, a make-up exam may differ significantly (in form and/or content) from a regularly scheduled exam.

Grading Scale:

As stated in the University Calendar, it is at the instructor's discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is between two letter grades.

To determine final letter grades, final percentage grades will be rounded up to the nearest whole percentage (i.e., 89.50% will be rounded up to 90% but 89.49 will not).

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

Blackboard for PSYC 351 (L02)

There is an area on the general campus Blackboard site set aside for this course. As I have not used Blackboard prior to this term I will keep you informed in class when features become available. Blackboard can be accessed via this link;

Reappraisal of Grades

A student who feels that a piece of graded term work (term paper, essay, test, etc.) has been unfairly graded, may have the work re-graded as follows. The student shall discuss the work with the instructor within fifteen days of being notified about the mark or of the item's return to the class. If not satisfied, the student shall immediately take the matter to the Head of the department offering the course, who will arrange for a reassessment of the work within the next fifteen days. The reappraisal of term work may cause the grade to be raised, lowered, or to remain the same.

If the student is not satisfied with the decision and wishes to appeal, the student shall address a letter of appeal to the Dean of the faculty offering the course within fifteen days of the unfavourable decision. In the letter, the student must clearly and fully state the decision being appealed, the grounds for appeal, and the remedies being sought, along with any special circumstances that warrant an appeal of the reappraisal. The student should include as much written documentation as possible.

Plagiarism and Other Academic Misconduct

Intellectual honesty is the cornerstone of the development and acquisition of knowledge and requires that the contribution of others be acknowledged. Consequently, plagiarism or cheating on any assignment is regarded as an extremely serious academic offense. Plagiarism involves submitting or presenting work in a course as if it were the student's own work done expressly for that particular course when, in fact, it is not. Students should examine sections of the University Calendar that present a Statement of Intellectual honesty and definitions and penalties associated with Plagiarism/Cheating/Other Academic Misconduct.

Academic Accommodation

It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and **have not** registered with the Disability Resource Centre, please contact their office at 220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course.

Absence From A Test

Make-up exams are NOT an option without an official University medical excuse (see the University Calendar). You must contact the instructor before the scheduled examination or you will have forfeited any right to make up the exam. At the instructor's discretion, a make-up exam may differ significantly (in form and/or content) from a regularly scheduled exam. Except in extenuating circumstances (documented by an official University medical excuse), a makeup exam is written within two (2) weeks of the missed exam.

A completed Physician/Counselor Statement will be required to confirm absence from a test for health reasons. The student will be required to pay any cost associated with the Physician Counselor Statement.

Course Credits for Research Participation

Students in most psychology courses are eligible to participate in Departmentally approved research and earn credits toward their final grades. A maximum of two credits (2%) per course, including this course, may be applied to an individual's final grade. Students can create an account and access the Research Participation System website at <http://ucalgary.sona-systems.com>. The last day to participate in research is April 12, 2007.

Student Organizations

Psychology students may wish to join the Psychology Undergraduate Students' Association (PSYCHS). They are located in the Administration building, room 170 or may be contacted at 220-5567.
