CRC TIER II IN ADULT CLINICAL NEUROPSYCHOLOGY JOB TALK

Jodie Gawryluk,
Candidate for the CRC Tier II in Adult Clinical Neuropsychology
January 5, 11:00am - 12:00pm in PF 126

UNDERGRADUATE CORNER

BEHAVIOURAL AIDE

Do you work with an individual with Autism or want hands-on experience in using best-practice strategies through the Applied Behaviour Analysis (ABA) philosophy for Autism?

We are a family with school-aged twins with Autism. We are currently working with a multi-disciplinary professional ABA trained consultant team. We require a behavioural aide to assist in implementing strategies to achieve established goals for each child's program plan.

Please consider this opportunity to allow for growth in the understanding of Autism and learn best practice strategies to better support an individual with this challenge.

Position details:
Behavioural Aide (FSCD contract)

Hours: 10 hours/week (flexible scheduling: between 3-7pm Monday through Friday)

Wage: $26.34/hour

Description: Responsible for implementing strategies to reach the goals in the child's program plan under the direction of a multi-disciplinary consultant team. This will require daily documentation of the child's progress, regular communication with the consultant team, supporting the family and child through demonstrated strategies, and enthusiasm.

REQUIRED QUALIFICATION:
• Post secondary education in a related field (education, social work, disability studies, psychology, etc.)
• Availability to work in Cochrane
• Effective time management and problem solving skills
• Ability to work independently, as well as in a team environment
• Excellent written and verbal communication skills

ABA training will be provided by the consultant team.

Please email your resume and cover letter to: lesiastringer@gmail.com or phone (403) 981-3272
